PROMINEO TECH

Week 1: Coding Assignment

URL to GitHub Repository: https://github.com/Melissaderrick/Promineo-Week-1-.git

URL to Your Coding Assignment Video: https://www.youtube.com/watch?v=woujs6Kc4kg

Instructions:

- In Visual Studio Code, write the code that accomplishes the objectives listed below and ensures that the code compiles and runs as directed.
- Create a new repository on GitHub for this week's assignments and push this document, with your project code, to the repository.
- Include the URLs for this week's repository and video where instructed.
- Submit this document as a .PDF file in the LMS.

Assignment Steps:

- The link below has a zipped file that contains an empty directory (folder) for your assignments.
- Download the file to your computer and unzip it.
- This directory (folder) should be used to organize each week's projects in the course.

   https://drive.google.com/file/d/1WgiDc_WJ8I0MfwbrbmtMsxHdTpupZsPjXT/view

> **Note**: In the following Git/GitHub Tutorial, a file is created in **Terminal** (on a Mac) using touch filename
>
> To do the same thing in **Command Prompt** (on Windows), use the following command:
>
> (Windows or Mac) echo "text-to-put-into-file" > filename

- Following the Git/GitHub tutorial in your week 0 video:
  - Create a directory (folder) inside **Week 01 - CLI, Source Control, and Variables**
  - Create a repository on the GitHub website.
  - **Push** your directory of files to GitHub as instructed in the video.
  - After your first push, please ensure that you make some changes to your directory (folder), such as adding a new file or changing your code.
  - **Push** those changes to your repository a second time (as shown in the video).

     https://www.youtube.com/watch?v=NGeksLUB1e8

- When complete, paste a screenshot of your terminal or command prompt that shows.

Video Steps:

- Create a video, up to five minutes max, showing and explaining how your project works with an emphasis on the portions you contributed.
- This video should be done using screen share and voice over.
- This can easily be done using Zoom, although you don't have to use Zoom, it's just what we recommend.
  - You can create a new meeting, start screen sharing, and start recording.
  - This will create a video recording on your computer.
- This should then be uploaded to a publicly accessible site, such as YouTube.
  - Ensure the link you share is **PUBLIC** or **UNLISTED**!
  - If it is not accessible by your grader, your project will be graded based on what they can access.
